

# Jewels of Asia Singapore and Thailand

Unforgettable journeys beginning at \$995\*

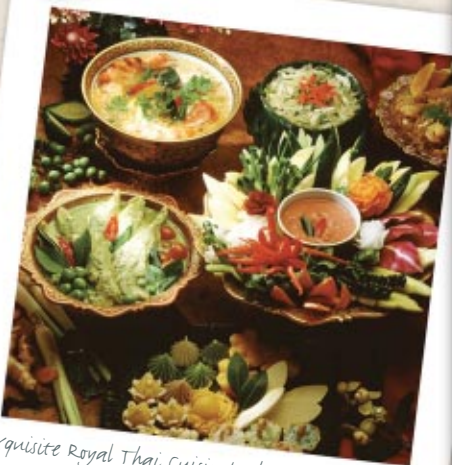

We immersed ourselves in the rich cultures of Singapore where Indian, Chinese, Malay and Western influences blend harmoniously.

The beautiful skyline of Singapore. We took the photo while on a bumboat cruise of the Singapore River. Singapore's lifeline, the financial district, is located nearby - we also found great pubs and restaurants at Boat Quay.

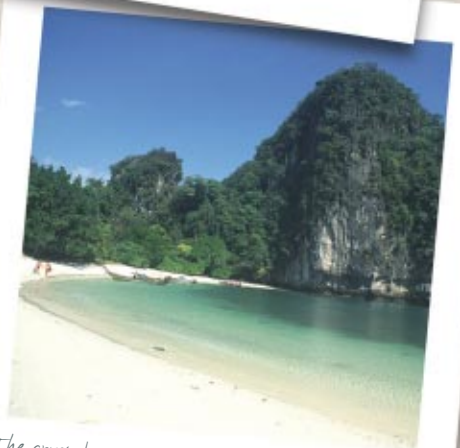

Unique to Singapore, the delicious chili crab is an official national dish. Singapore's delight for food lovers like us; Gourmet magazine's right - it does have the "World's Best Street Food!"

Exquisite Royal Thai Cuisine! The wonderful harmony of tastes and textures and the beautiful ancient artistry of fruit carvings made each of our meals a special occasion to remember.

Chiang Mai - a shopper's paradise. Thai craftspeople pass down their art from generation to generation. We brought home several of these handpainted parasols.

The crystal waters of Krabi. This seaside province dates from the prehistoric period. We explored forest caves and just a few of its more than 100 islands. We're going back!

These are just some of our fond memories of Singapore and Thailand. Start making your own memories today by calling 1-800-742-5742...
